

CONNECT WITH CONFIDENCE EVENT WELL-BEING PROTOCOLS

As you consider attending, in-person, the Connect With Confidence event on January 13th at the Gaylord Rockies, we want to provide you with an overview of the well-being initiatives we will be implementing to create an environment of care for all attendees.

We are diligently monitoring on a daily basis the current state of the pandemic in Colorado and will continue to do so as we get closer to the event. We will make all decisions based on that which reduces risk, even if it means a postponement of the event to a later date. We will keep everyone informed of our decisions along the way.

The event is complimentary, however should you elect not to participate after registering, a \$25 fee will be due and donated to the Rocky Mountain PCMA Leadership Scholarship Fund. We look forward to seeing you at Connect With Confidence.

See below the steps we are taking to create a well-being experience for all:

- **CLEAR Health Pass symptom and temperature screening process for all attendees** prior to entering the event space. Screening is secure and protected for each attendee and results are not shared with outside parties.
- **Voluntary On-site COVID Rapid Testing** (still in progress). We are currently designing an on-site service to voluntarily test on-site attendees who wish to participate in this testing approach. Testing is secure and protected for each attendee and results are not shared with outside parties.
- Division of attendees into ZONES for the purpose of achieving **physical distancing room sets and specific way-finding pathways during the entire event.**
- **Complete contactless check-in** experience limiting physical interaction.
- **Assignment of a "sanctuary seat" for all attendees in the general session space**, complete with all necessary sanitation supplies, masks and other well-being accessories. Attendees will have complete control of their space for the entire event.
- **Multiple seating and social distancing options within the breaks and lunch.**
- **F&B design incorporating individual sustainable packaging**, single-use beverage packaging, no buffets or self-serve, chef-attended actions stations with plex-barriers, self-contained plated lunch.
- **Electrostatic sprayer sanitation** in all event spaces and repeated during breaks/lunch.
