

Hello!

Welcome to the Cogent-Hubilo Virtual Event Platform!

You should have received an email from RMPCMA with a link to the event. Before attempting to login, we recommend using a desktop, turning your VPN off and opening the link in a Google Chrome browser.

To login:

1. Use your registered email ID.
2. You will be emailed a Login Code. (Double-check your spam/junk folder).
3. Copy that code and paste it in the verification box.
4. Login to the platform.

As you sign in, you will be asked for a picture of yourself and company information so that people know who you are and can connect with you during the event. To optimize your experience during the event, please take time to complete your profile as you will be interacting with your fellow industry leaders.

We also recommend you allow Hubilo permission to access your microphone and camera when instructed to allow your participation in the Lounge or other sections of the platform. The platform will check for compatibility of your microphone and camera.

If you run into any problems or have any questions, you can click the blue button on the lower left-hand corner of the event platform and one of our RMPCMA staff members will be able to assist you.

Enjoy the Rocky Mountain Reskill Roadtrip!
